An Introduction to our fixtures...

A wide selection with no minimum

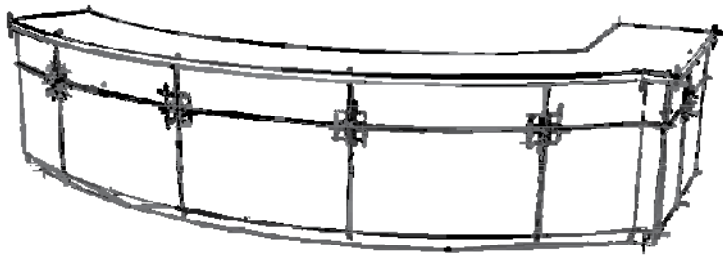

We offer a wide selection of quality fixtures in a variety of materials and finishes. Standard and custom designs with no minimum purchase requirements.

Custom and Modular Cash Wrap options

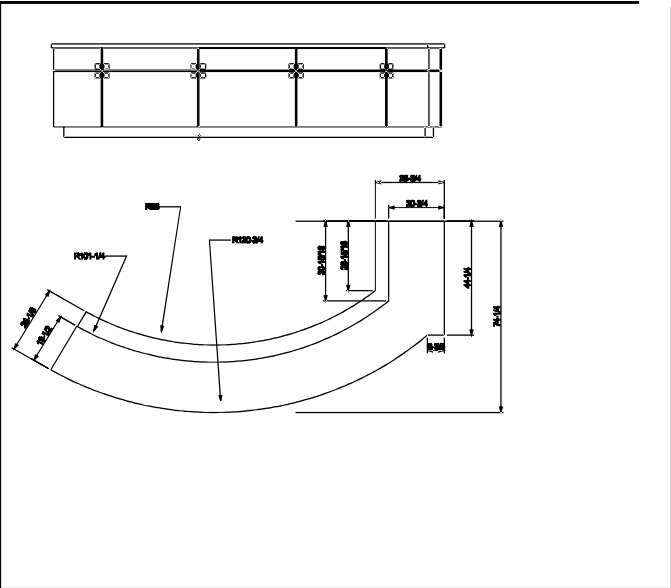

We have expanded our standard Cash Wrap Modules which can be arranged in a variety of configurations to fit your specific floor space and customer service needs. Standard and custom Cash Wraps are shown in many shapes, sizes and finishes. see pages 42-44

Notes:

We can turn an idea
like this sketch...

...into this CAD Drawing

Send us your sketch today.

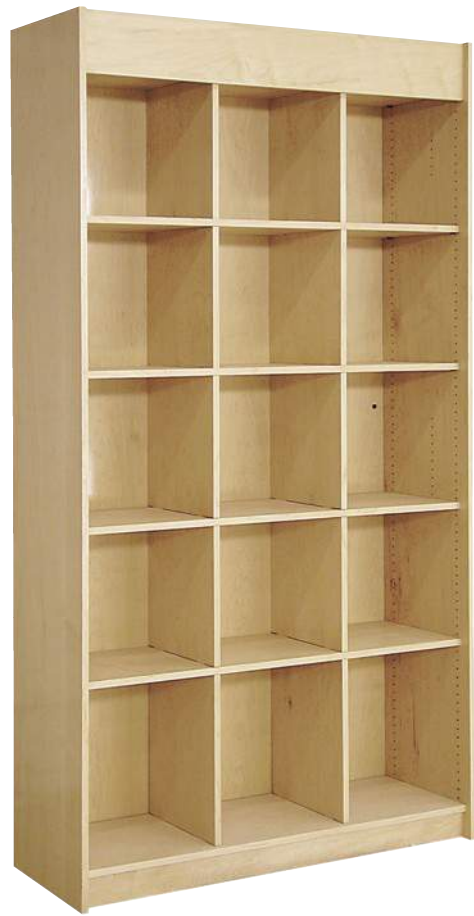

If you know what you want, but don't see it in our catalog, fax or email us a sketch of what you are looking for. We will do a CAD drawing, with dimensions, to make sure we both understand the design elements.

Modular & Custom Cash Wraps

The following 3 pages are a review of our standard Cash Wrap modules and photos of a few examples of custom Cash Wraps.

For cost considerations, we recommend that you use a combination of our standard Cash Wrap modules. Using standard modules your Cash Wrap can be straight, curved, L, U or O-shaped. Options include computer wells, check-writing counters and many other important Add-on features. If modules do not fit your exact customer service needs, we can modify the modules or design and build a completely custom Cash Wrap.

A 60" Half-vision Unit
24" D x 60" W x 42" H

B 48" Counter
24" D x 48" W x 42" H

Counter Corner Units

Counter Corner Units are built in two pieces for easier installation. Optional one-piece unit available if installation access allows. Includes two open adjustable Shelves and one adjustable shelf behind the doors.

C 48" x 48" Counter Corner
24" D x 42" H

D 60" Cashwell Counter
24" D x 60" W x 42" H

Cashwell Counter Combinations

These units serve well as stand-alones. Includes two open adjustable Shelves and one adjustable shelf behind the doors. Flush-mounted pulls. Wire access for IT cable.

Wall Cabinets

These photos show how a simple design can be upgraded with our Wall Cabinet System options. The appearance can change dramatically by varying the Upright thickness, height and depth, and moulding patterns on the Uprights, Headers and Top Caps.

A 18" D x 147" W x 92" H
Three cabinet run with taped edges. Accessories include Adjustable Shelves and Hangrod.

B 22" D x 162" W x 92" H + Top Cap
6" Thick Uprights inside and 3" Thick Uprights outside. Headers and Top Caps with Moulding. Accessories include adjustable Shelves upgraded with Moulding on front edge, Hangrod and SlatRail with Waterfall Faceouts.

Header optional if Top Cap used

C 22" D x 156" W x 92" H + Crown
3" Thick Uprights. Headers and Crown Moulding Top Cap. Accessories include Shelves, Hangrod, SlatRail and Waterfall Faceouts.

Floor Gondola

Gondolas match the Wall Cabinet System and use the same Hangrod, Shelves and Tray with dividers. Standard End Panels slotted for optional Faceouts. Locking casters included. Choice of moulding patterns and accent stripes. Ships KD. 37" D x 54" W x 52" H

Gondola
Choose 3" moulding pattern & accent stripe color
Order with Slatwall on one or two ends
Slatwall can be ordered w/ or w/o metal channels

Shelves
18" x 16" x 48"

Hangrod

See page 35 for Slatwall Accessories

A Gondola 37" D x 54" W x 52" H with Slatwall End Panels. Use Slatwall on one or both ends. Unit shown with Shelves and Hangrod (on back).

Heavy Wine Shelving

Starter and Add-on system. Starter units have (2) Uprights with no pin holes on outside, Add-on units have only (1) Upright with pin holes bored through. Heavy-duty Shelves are 1" thick and hold up to 400 pounds each. Tag moulding option for Shelves. Ships KD.

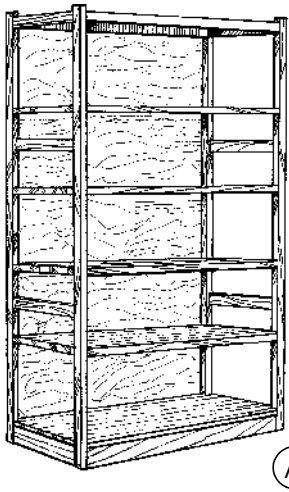

D = varies with combination
W = (36" by quotation), 48"
H = 53", 66", 83"

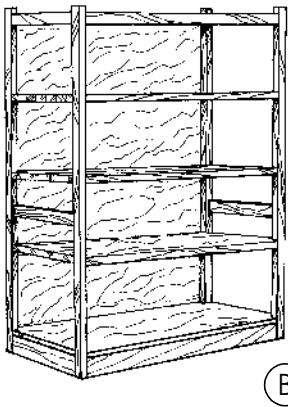

Tag Moulding option for Shelves.

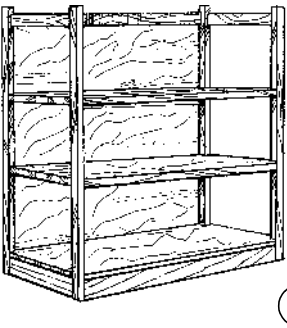

Four Shelves w/Backing

Five Shelves – Holds 35 cases
Starter: 20" D x 49" W x 83" H
Add-on: 20" D x 48" W x 83" H

Four Shelves – Holds 28 cases
Starter: 20" D x 49" W x 66" H
Add-on: 20" D x 48" W x 66" H

Three Shelves – Holds 21 cases
Starter: 20" D x 49" W x 53" H
Add-on: 20" D x 48" W x 53" H

Tiered Wine Rack

Display one bottle above for selection and one Upright bottle in front of four laid-down bottles for stock. Holds up to 24 half cases or 12 full cases of different varieties. Ships assembled or KD.

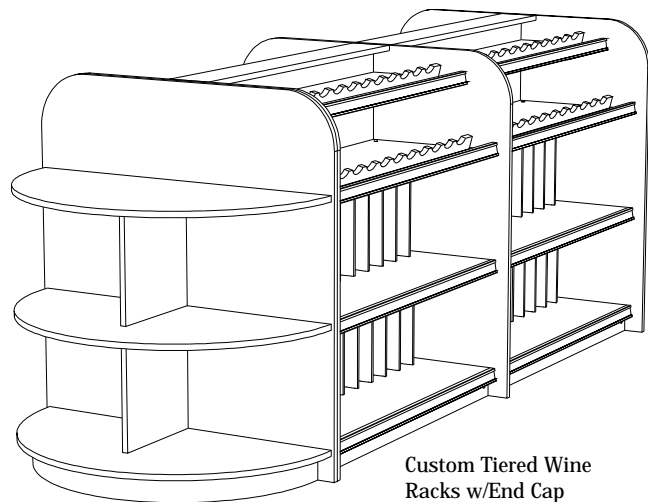

Single-sided
18" D x 47" W x 47" H

Double-sided
42" D x 47" W x 47" H

(A)

Tiered Wine Rack for Magnums also available

Custom Tiered Wine Racks w/End Cap

(B) Gondola 35" D x 50" W x 52" H with Moulding pattern and one Vertical Slot Standard End Panel. Unit shown with Hangrod and Shelves (on back) and Vertical Slot Standard Shelves on end.

Gondola

Gondolas match the Wall Cabinet System and use the same Hangrod, Shelves and Tray with dividers. Optional Vertical Slot Standard End Panels use Shelves, Hangrods, Belt/Tie Bars and Faceouts. End Panels slotted for optional Faceouts. Locking casters included. Choice of moulding patterns and accent stripes. Ships KD. 35" D x 50" W x 52" H

Adjustable Shelf
17" D x 17" W with clipped corners
Glass, Acrylic, Wood

(F) Locking Showcase Tower with (2) glass Shelves

Horizontal Slot Standard

The Horizontal Slot Standard System offers unique merchandising capabilities. Designed to carry a full load, the Horizontal Slot Standard System is stronger than Slatwall and more versatile than outriggers, Shelving or Racks. 72", 82", 92", 96" heights. Slots, 3" on center, accommodate heavy-duty brackets for Shelves and Hangrods. Accessories available for 24", 36" and 48" on-center mounting. SlatRails rest on pins inserted into the sides of standards. Use the Horizontal Slot Standard System Accessories or most standard Slatwall Accessories.

The Horizontal Slot Standard System easily attaches to any surface. Concealed metal brackets lock onto bolts or screws which are tightened through the slots. (Bolts/screws not provided.) The Toggler® Anchor System is available to anchor Horizontal Slot Standards to hollow building materials. Ships KD.

We recommend the Toggler® Anchor System to attach fixtures to hollow building materials including drywall. The unique one-piece steel anchoring channel pivots

on durable installation legs. The sliding cap ratchets down the legs to securely "capture" the wall between the channel and cap. Legs snap off so cap is flush with wall. Insert bolt through fixture into cap and tighten. Minimum clearance behind wall is 1-1/2".

see page 35 for SlatRail/Slatwall Accessories

16 - Horizontal Slot Standards
